- Connect once, and offer your services to all members of SAP Logistics Business Network through this single account (no more log on to various customer portals)
- Logistics business partners anytime, anywhere
- Any device, back-end system and level of technical ability

Collaborate

- Through inter-company and transparency scenarios
- Multi-modal, globally and seamlessly

Gain Insights

- Through real-time alerts and notifications
- With analytics and benchmarking

Freight Order Collaboration

End-to-end collaboration for LTL + FTL shipments with your customers*

Order Management

Quotation processing
and order confirmation

Slot Booking

Appointment booking
for pick-up or
delivery of goods

Execution

Milestone and ETA
reporting, as well as
document exchange, such
as proof of delivery

Settlement

Self billing, invoicing and
dispute management

** The scope depends on your customers and for which
processes they leverage SAP LBN for collaboration with you*

*** API enablement planned*

Collaborative
processes

Digital freight
documents

Real-time
insights

Out-of-the-box
integration

Standardized Multi-Mode Visibility for your Shipments*

Provide visibility to your customers on the execution of their **ocean transportation shipments**:

Booking & container tracking with milestones/actual events and geo location at sea

- Vessel arrived
- Container unloaded
- Container loaded
- Vessel departed

- Geo location

Port of Discharge

- Vessel arrived
- Container unloaded

Container Terminal at Port of Discharge

- Container out for delivery
- Empty container returned

Consignee Location

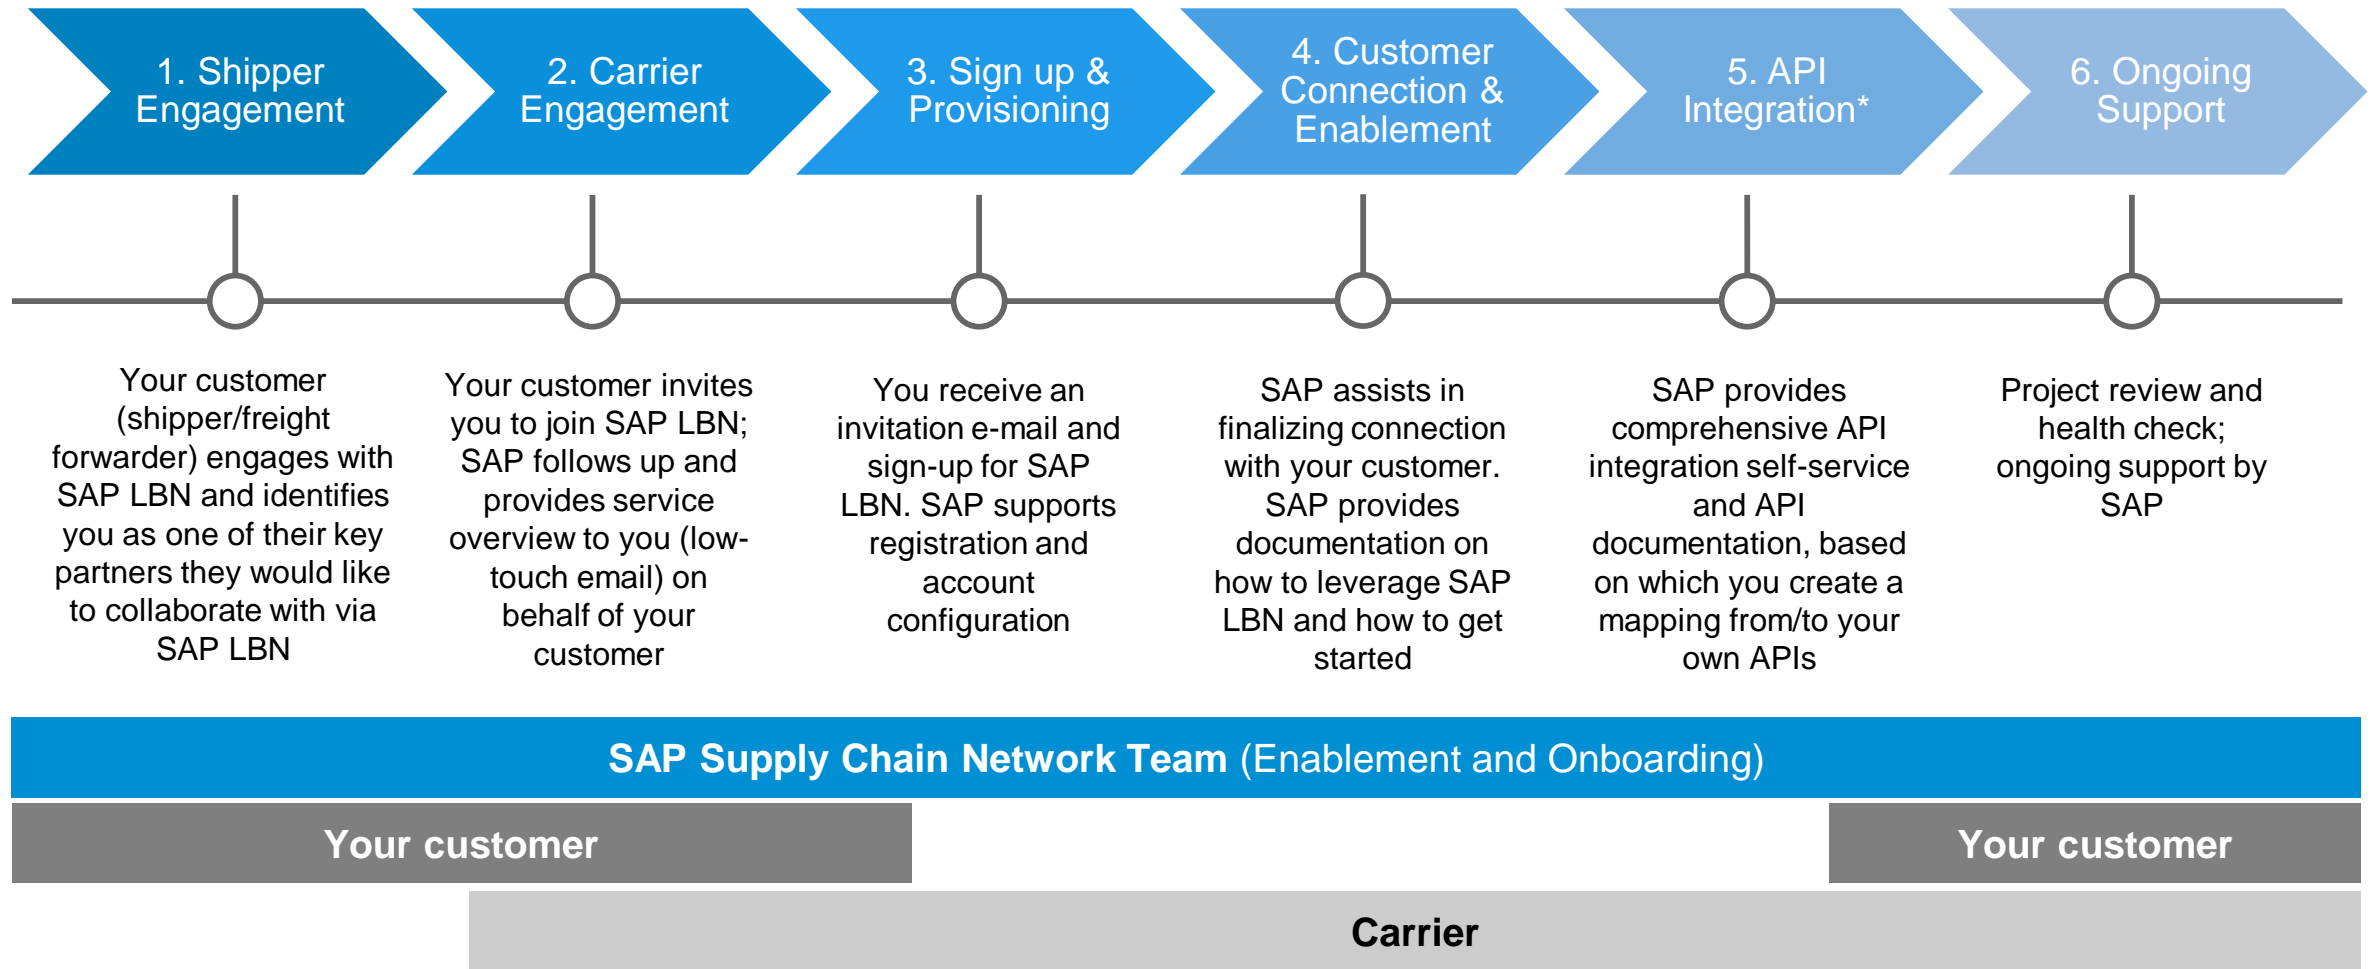

- Container delivered

How can you join
SAP Logistics Business Network?

SAP Logistics Business Network

Typical customer (shipper/freight forwarder) driven onboarding process

Are there costs involved?

Basic Membership

As a carrier (or freight forwarder in a “carrier”-like role), signing-up to SAP Logistics Business Network for receiving your customers transport orders for confirmation, event reporting, invoice submission and booking slots is **free of charge***!

If you are a carrier or freight forwarder and would like to use SAP Logistics Business Network not only to receive transport orders from your own customers (in a “carrier”-like role), but want to leverage the network also to collaborate on your own planned transport orders with your own carrier network (more in a “shipper”-like role) by integrating with your own SAP Transportation Management back-end, please reach out to your local SAP Account Team to request an offer for a separate *SAP Logistics Business Network, freight collaboration option* license (license costs apply).

SAP Logistics Business Network, Basic Membership

Create an Intelligent Enterprise with Advanced Logistics Collaboration and Insights

SAP Logistics Business Network is an open network that connects business partners for inter-company collaboration. Freight collaboration for SAP Transportation Management supports you as a carrier to jointly manage the related transactions and exchange documents with your shippers.

Key Benefits

Break up siloed business operations

Onboard once and collaborate with many stakeholders on an open, secure network that tightly integrates with your logistics business processes.

Improve efficiency of logistics processes

Use real-time information and situational insights to ease decision-making for every role and find the best way to automate logistics collaboration.

Cut the cost of integrating your value chain

Apply common communication standards and digitalize them across your complete network of logistics processes.

Thank you.
